

NORTHERN LIGHTS PHOTO TRIP

Photographing the Northern Lights

Join us for an exciting aurora search and learn how to use your camera to photograph this magical natural phenomenon.

Before we head into the darkness of night, our photographer and guide will teach you how to use your camera for optimal northern lights pictures. Since we only have up to 8 participants on each tour, the guide will have enough time to help everyone adjust their camera settings. Tours are only running if the weather and the aurora conditions are right. Your reception will be informed. Remember this is a natural phenomenon and northern lights can never be guaranteed.

Suitable for both amateurs and professional photographers. The trip takes 3 hours, starting in Ringstad in Bø in Vesterålen. Pick up service from your guesthouse on request.

Whats is included? Guide, short photo workshop, local transport and hot drinks.

What to bring yourself? Warm clothes, warm jacket, hiking shoes, hat, gloves, camera, tripod (can be hired) and extra batteries und memory card.

Price: 650,- NOK per person. Children between 2-14 years 300,- NOK
